'SOCIAL REHABILITATION IS THE ANSWER'

Thursday, 19 March 2020

Members of F&A

I am writing to bring you up-to-date information about Activities and Support. The Staff of Friends & Advocates continue to work in light of the changing environment of our services.

During this unprecedented period of closure it is imperative that you continue to practice Social Distancing in your daily lives. You are your own best advisor in this respect.

If you believe that you have been exposed to someone who then shows signs of Covid-19 you must make the decision to self isolate for 14 days to see if you manifest the signs of the virus. Then seek out medical advice if you do. If not then maintain the Social Distancing as you were before.

Some of the grocery stores I frequent have protective gloves to wear while there. Go out and get groceries as you need to do so. It has been a strange situation but we can weather the storm can we not?

As soon as we can, we will bring back our Calendar of Social Activities and Open Activities, plan for bigger events too, however now we must be prudent and wait for the time of distancing to reduce.

What the new norm will be, we cannot guess at this time, but we will be there for you throughout. Staff will monitor the Voice Mail at the office and return calls as appropriate.

This continues to be your F&A and we are here for you. Be patient and we will get through this together.

Sincerely,

A handwritten signature in blue ink that reads "Scott M. Brooker".

Scott M. Brooker, CEO
